

Company

Ausnutria Dairy Ingredients is a division of Ausnutria, a professional and fast-growing company with over 100 years of experience in the dairy industry. From its headquarters and five production sites in the Netherlands, both the consumer and the corporate global markets are served with high quality infant formula and other types of dairy products. With a firm belief in the natural benefits of goat milk, Ausnutria Dairy Ingredients markets a full range of goat milk ingredients under the brand CBM. The CBM brand is world leading in high quality goat milk ingredients for the global business-to-business market.

Goat Power - Instant Sweetened

Goat Power - Instant Sweetened Protein Powder with lactose is a superior quality protein powder made from the highest quality Dutch goat milk. Using a patented process a casein rich stream is dried carefully to have the proteins remain in a more native state. Additional lactose is added in the process to improve powder characteristics. This process results in a unique sweetened goat protein powder, high in casein protein, with a mild, slightly sweet, taste.

Goat Power

Goat Power Protein Powders are produced from 100% Dutch fresh goat milk. Goat milk contains high levels of important nutrients, including vitamins, minerals, (essential) fatty acids and proteins

Goat Power Instant Sweetened is easy to digest because of its' specific casein profile, with a relatively low percentage of as1-casein, which appears to give a softer curd in the stomach.

Benefits

- ✓ Excellent source of (casein) proteins, suitable for a wide range of protein dense products.
- ✓ Easy to use in formulations because of its' superior powder properties and dispersibility.
- ✓ Great for sports drinks, because of relatively low viscosity in solution suitable for beverages with high drinkability.
- ✓ Derived from 100% Dutch goat milk, fresh neutral taste.

Goat Power - Instant Sweetened

Applications

All Goat Power products can be used for protein enrichment of a variety of food products. Instant products are especially suited for all types of instant foods where good reconstitution behaviour is important such as sports drink mixes, meal replacement blends and powdered desserts.

Packaging

Multiply paper bag with PE liner, 15 kg net.
Other packaging formats available upon request.

Storage Instructions

Product should be stored in a cool, dry and dark environment.

Shelf life

If stored properly, in the original packaging, a shelf life of 18 months can be guaranteed.

Chemical/Physical characteristics	Typical values
Protein (N*6.38)	45%
Fat	1%
Lactose	43%
Ash	6%
Moisture	<4%

Microbiological	
Total plate count	<10.000 cfu/g
Yeasts and mould	<100 cfu/g
Staphylococcus aureus	Absent / 1 g
Salmonella	Absent / 125 g
Listeria monocytogenes	Absent / 125 g
