

Company

Ausnutria Dairy Ingredients is a division of Ausnutria, a professional and fast-growing company with over 100 years of experience in the dairy industry. From its headquarters and five production sites in the Netherlands, both the consumer and the corporate global markets are served with high quality infant formula and other types of dairy products. With a firm belief in the natural benefits of goat milk, Ausnutria Dairy Ingredients markets a full range of goat milk ingredients under the brand CBM. The CBM brand is world leading in high quality goat milk ingredients for the global business-to-business market.

Goat Power - Skimmed Goat Protein Powder

Goat Power - Skimmed Goat Protein Powder (SGPP) is a unique superior quality protein powder made from the highest quality goat milk. Using a patented process a casein rich stream is obtained and subsequently dried to have the proteins remain in a more native state. This process results in a unique goat protein powder, high in casein protein with a very mild and neutral taste.

Goat Power

Goat Power Protein Powders are produced from 100% Dutch fresh goat milk. Goat milk contains high levels of important nutrients, including vitamins, minerals, (essential) fatty acids and proteins.

Goat Power Skimmed Goat Protein Powder (SGPP) is easy to digest because of its' specific casein profile, with a relatively low percentage of α s1-casein, which appears to give a softer curd in the stomach.

Benefits

- ✓ Excellent source of (casein) protein, suitable for protein enrichment of sports nutrition, senior nutrition and overall health and wellness foods.
- ✓ Free flowing, low dusting powder with excellent dispersibility characteristics.
- ✓ Perfect replacement for regular skimmed goat milk powders, with a more mild and refined taste.
- ✓ Derived from 100% Dutch goat milk.

Goat Power - Skimmed Goat Protein Powder

Applications

All Goat Power products can be used for protein enrichment of a variety of food products. SGPP is suitable for the production of various dairy products, meal components, protein bars and snacks.

Packaging

Multiply paper bag with PE liner, 15 kg net.

Other packaging formats available upon request.

Chemical/Physical characteristics	Typical values
Protein (N*6.38)	63%
Fat	1%
Lactose	25%
Ash	9%
Moisture	<4%

Storage Instructions

Product should be stored in a cool, dry and dark environment.

Shelf life

If stored properly, in the original packaging, a shelf life of 18 months can be guaranteed.

Microbiological	
Total plate count	<10.000 cfu/g
Yeasts and mould	<100 cfu/g
Staphylococcus aureus	Absent / 1 g
Salmonella	Absent / 125 g
Listeria monocytogenes	Absent / 125 g
